PREPARATION INSTRUCTIONS

Arrive **10 minutes** prior to your appointment.

Continue taking your medication as prescribed. If fasting, you may take a small sip of water.

MOST IMAGING PROCEDURES DO NOT REQUIRE PREPARATION, EXCEPT FOR THE FOLLOWING:

CT SCAN

Neck, Chest, Abdomen, Pelvis, Angiogram & Cholangiogram (IVC)

Fast for 4 hours prior to the examination.

CT Abdomen & Pelvis

Drink 1 litre of water (4 cups) 30 minutes prior to the examination.

Renal (KUB) IV

Fast for 4 hours and drink 1 litre of water prior to the examination.

MRI SCAN

MRI Abdomen, Pelvis, Prostate

Fast for 4 hours. Stay hydrated with water only.

MR Enterography

Fast for 6 hours. Stay hydrated with water only.

MRI SAFETY

For your safety, remove all jewellery, piercings, magnetic eyelashes, hair extensions, coloured contact lenses, all removable metallic objects, or prostheses prior to your MRI.

ULTRASOUND

Abdomen

No food for 6 hours.

Follow your doctor's advice if you are a diabetic.

Pelvis, Renal, & 1st Trimester Pregnancy

Empty bladder 1.5 hours prior to the examination.

Drink 500 ml of water immediately after emptying bladder and stop drinking 1 hour prior to the examination.

Do not empty bladder.

Bladder must be full for this examination.
